** 5-Sided Corner Table is not for use as a stand-alone unit. It is equipped with two wire management trays, one on each 48" side, and four legs, but it must be connected to a main unit on each 30" side.

Product Specifications - 1500 Series Computer Tables

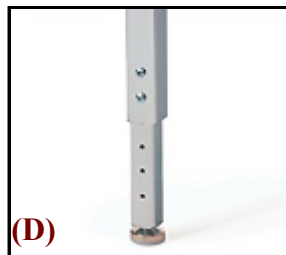

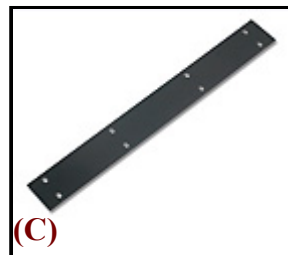

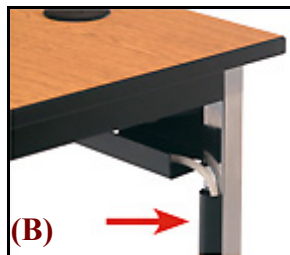

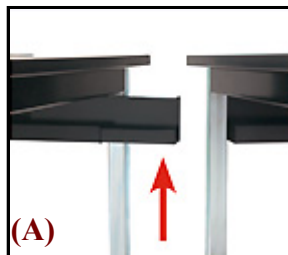

Top

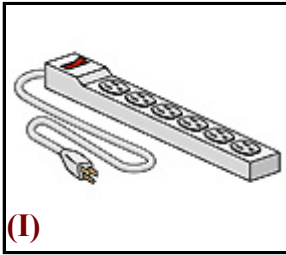

13/16" thick solid core construction using high pressure laminate over 45 lb. industrial grade particle board with a gator ply backer sheet for balance. The edge is tough 3mm black PVC with soft radius edges and corners. Two 3" diameter wiring grommets lead from the work surface to the wire management system below.

Frame

The top is supported by a 14-gauge, 1 3/4" high, black powder coated no sag perimeter rail system and 5"H x 3 1/4"D x 16-gauge wire management tray. The **legs interlock with the rail system** to promote a very solid structure. *No single-bolt connection used here.* Fixed height legs are manufactured using 1 1/4" square 14-gauge steel tubing. Adjustable legs are 1 1/4" square 14-gauge steel tubing with adjustable inserts of 1" square 14-gauge steel tubing. Legs have chrome or black epoxy powder coat finish and 1" adjustable leveling glides. Adjustable leg inserts are always chrome finished. Ships ready to assemble.
